

ST ALOYSIUS

CATHOLIC COLLEGE

14th August 2020

Dear Parents/Guardians

SUBJECT: Outreach excursions

I currently teach your son/daughter in a class of Grade 5/6 students in the Elective course known as Outreach. This course involves our students becoming involved in various outreach activities, raising their awareness of a range of social justice issues which impact on many in our community.

This year, due to Covid19 restrictions and the size of our group, we are unable to access some of the locations available to us last year. Because of this, we have arranged for our class to spend some of each Tuesday afternoon from 25th August until the end of the term, working with the Prep students at the Kingston Campus. The students will be helping their younger peers with their work, reading stories and playing games.

On Tuesday, 18th August we will be travelling to the local Kingston Branch of the Salvation Army to participate in their Beyond the Classroom Program where we will learn about the work of the Salvos and participate in an outreach activity.

Students will travel to and from the Salvation Army office in Blackman's Bay and to the Kingston Campus in the College bus, accompanied by me.

If you have any questions about these excursions, please contact me at the College.

Yours sincerely

Susie Bond
Grade 5/6 Outreach Teacher
Deputy Principal

Joseph Sandric
Co Principal
